To Whom it May Concern,

I am in love with Waldo and Woodhead! Never before have I seen two such adorable geeks that have been able to make me laugh so easily—I am *still* smiling days later! As a matter of fact, the entire audience was enthralled from the toddlers glued to their seats to the senior citizens with tears of laughter rolling down their cheeks and everyone in between. They all had a thoroughly enjoyable time!

In such a sophisticated world the Waldo and Woodhead brand of humor is very simple and yet it is the simplicity that makes me love it even more; it's just plain, good, clean fun—and it's lightheartedness is a welcome break from reality. I will never forget the sight of Woodhead trying to put on his guitar over his big sombrero and Waldo's juggling defies description. (I didn't think balls could bounce like that!)

These are two very talented performers (and snappy dressers to boot!) that I would highly recommend to anyone looking for some great family entertainment. A national treasure!

Sincerely,

Kim Prangley, Director.

Dear Gentlemen:

It's a genuine delight for me to approach you in the hope of engaging the "WALDO WOODHEAD SHOW" for the 1996 Royal Easter Show to be staged at the Auckland Showgrounds April 3rd to April 8th.

Your appearance here in 1992 met with exceptional response from our audiences and the quality of our performance has not been matched by any other act since.

Being able to headline our entertainment roster with a top-line American act such as yours, gives us one enormous start in our quest to offer our patrons a happy and wholesome entertainment package. The kind of laughter you guy's generate will ensure our 1996 Easter Show a success.

I look forward to finalizing arrangements with you as soon as possible and have already made a tentative booking for you at the same Motel we used for your last visit.

If you can forward publicity brochures to us we will gear up our Public Relations Officer to launch an advertising campaign that'll tell every man and his dog for miles around - "those unique fun-lovin' fellas, those incomparable incorrigible jugglin' gentlemen from the US of A are coming our way again -- hallelujah."

My warmest personal wishes
Yours sincerely

John Maybury
ENTERTAINMENT MANAGER

Dear Woodhead:

I am one of your biggest fans. I take my wife and kids to see you every chance we get. We have seen you nearly every year at First Night Burlington as well as at Tunbridge.

Is there any chance you could send me a signed photograph of you and Waldo together that I could mount on my wall? I would be glad to pay for it. Just let me know how much and I will send a check or mastercard information.

We love your physical comedy. Noone makes my son laugh as hard, and I often cry from laughter. A true joy. I printed shome shots of you from your web page for my daughter to take to show and tell this morning. :-)

Keep up the good work..

Best wishes,

daver
